ISBN 0-954307-4-3

Printed by B & Jo Enterprise Pte Ltd in Singapore.

# Table of Contents

<b>Introduction</b>	<b>1</b>
How This Book Helps You .....	1
A+ Core Hardware Service Technician Examination Blueprint .....	3
Domain 1.0 Installation, Configuration, and Upgrading .....	4
Domain 2.0 Diagnosing and Troubleshooting .....	8
Domain 3.0 Preventive Maintenance, Safety, and Environmental Issues .....	9
Domain 4.0 Motherboard/Processors/Memory .....	10
Domain 5.0 Printers .....	12
Domain 6.0 Basic Networking .....	13

## Part I Chapters

---

<b>1 Basic Terms and Concepts</b>	<b>17</b>
Introduction .....	21
PC Standards .....	21
The PC System .....	22
System Unit Cases .....	23
Inside the System Unit .....	25
AT and ATX Specifications .....	27
Power Supplies .....	27
System Boards .....	29
Microprocessors .....	30
Chipsets .....	32
Connectors and Jumpers .....	33
Configuration Settings .....	34
Expansion Slots .....	35
Adapter Cards .....	36

Storage Devices .....	40
Disk Drives .....	41
Digital Versatile Discs (DVD) .....	45
Tape Drives .....	46
Peripherals and Ports .....	46
Keyboards .....	47
Monitors .....	48
Other Peripherals .....	52
System Software .....	54
Basic Input/Output Systems .....	53
CMOS Setup .....	57
Operating Systems .....	59
Review Questions .....	62
Answers and Explanations .....	56
Challenge Solutions .....	68
<b>2 Adding and Removing FRU Modules in Desktop Systems</b> .....	<b>71</b>
Introduction .....	75
Replacing System Boards .....	75
Removing External I/O Systems .....	76
Removing the System Unit's Cover .....	77
Removing Adapter Cards .....	77
Removing the Cables from the System Board .....	79
Removing the System Board .....	80
Replacing System Board Devices .....	83
Installing Microprocessors .....	83
Installing Memory Modules .....	89
Installing Support ICs .....	90
Power Supplies .....	91
Removing a Power Supply .....	92
Installing Power Supplies .....	93
Installing Video/Monitor Systems .....	95
Input Devices .....	96
Keyboards .....	97
Mice .....	98
Installing Touch-Sensitive Screens .....	99

Installing Storage Devices .....	101
Floppy-Disk Drive Installation .....	102
Hard-Disk Drive Installation .....	102
Installing CD-ROM/DVD Devices .....	108
Tape Drives .....	110
Removable Storage .....	114
Installing Adapter Card-Based Peripherals .....	115
Installing Sound Cards .....	116
Modems .....	117
Installing an Internal Modem .....	118
Configuring a Modem .....	119
Establishing Modem Protocols .....	120
Character Framing .....	122
SCSI Adapter Cards .....	123
Universal Serial Bus .....	124
IEEE-1394 FireWire Bus .....	125
Installing Devices Using Advanced Buses and Ports .....	126
Installing Wireless LAN Components .....	128
Review Questions .....	131
Answers and Explanations .....	133
Challenge Solutions .....	135
<b>3 Adding and Removing FRU Modules in Portables</b> .....	<b>137</b>
Introduction .....	140
Portable System Components .....	140
Portable System Boards .....	141
Installing Portable Memory .....	142
Portable Display Types .....	144
Keyboards .....	145
Trackballs .....	147
Touch Pads .....	148
Portable Drives .....	149
External Portable I/O .....	150
Portable Peripherals .....	151
Peripheral Storage Devices .....	151
External Drive Units .....	152
Removable Storage .....	154
Portable Power Sources .....	156

PC Cards .....	159
Cardbus .....	160
PC Card Functions .....	160
Installing PC Cards .....	160
Installing PC Card Support .....	161
Networking Portables .....	164
Wireless Networking with Portables .....	166
Expanding Portable Peripheral Capabilities .....	168
Docking Stations .....	168
Port Replicators .....	169
Review Questions .....	171
Answers and Explanations .....	173
Challenge Solutions .....	174
<b>4 System Resources</b> .....	<b>177</b>
Introduction .....	180
Extended I/O .....	180
Moving Data .....	181
Initiating I/O Transfers .....	181
PC Address Allocations .....	186
Typical I/O Resource Allocations .....	188
Internal Modems .....	192
Floppy-Drive Controllers .....	193
Hard-Drive Controllers .....	194
Multimedia Devices .....	195
Network Adapter Cards .....	196
USB Ports .....	196
IEEE-1394 Ports .....	197
Infrared Ports .....	197
Review Questions .....	200
Answers and Explanations .....	203
Challenge Solutions .....	204
<b>5 Peripherals and Ports</b> .....	<b>207</b>
Introduction .....	210
Standard I/O Ports .....	210
ATX Ports .....	211
AT Ports .....	212

Parallel Ports .....	215
Printer Cabling .....	215
LPT Handles .....	217
Serial Ports .....	217
Serial Transmission Modes .....	218
Serial Cables .....	220
Serial Port Names and Resources .....	222
USB Architecture .....	222
USB Cabling and Connectors .....	223
FireWire .....	224
Infrared Ports .....	225
Review Questions .....	229
Answers and Explanations .....	231
Challenge Solutions .....	233
<b>6 Installing Disk Devices .....</b>	<b>235</b>
Introduction .....	238
Integrated Drive Electronics Interface .....	238
Configuring IDE Drives .....	240
Advanced EIDE Specifications .....	241
Small Computer System Interface .....	244
SCSI Specifications .....	245
SCSI Cables and Connectors .....	248
SCSI Signaling .....	249
SCSI Addressing .....	251
SCSI Termination .....	253
RAID Systems .....	256
Review Questions .....	261
Answers and Explanations .....	263
Challenge Solutions .....	265
<b>7 Installing and Configuring Peripheral Devices .....</b>	<b>267</b>
Introduction .....	269
Video/Monitor Systems .....	269
Installing External Dial-up Modems .....	270
External Modem Configuration .....	272
Installing Digital Modems .....	272
IEEE-1284 Parallel Port Devices .....	273

Peripheral Storage Devices .....	274
Infrared Devices .....	276
Personal Digital Assistants .....	278
Installing Uninterruptible Power Supplies .....	279
Review Questions .....	282
Answers and Explanations .....	283
Challenge Solutions .....	284
<b>8 System Upgrading and Optimizing .....</b>	<b>285</b>
Introduction .....	289
System Board Upgrading .....	289
Upgrading Microprocessors .....	290
Upgrading the BIOS .....	296
Upgrading Memory .....	297
Making Upgrade Decisions .....	300
HDD Upgrading .....	300
Disk-Drive Subsystem Enhancements .....	304
Upgrading Adapters .....	305
Specialized Video Cards .....	306
Optimizing Network Adapters .....	307
Upgrading Peripheral Devices .....	308
Power-Supply Upgrade Considerations .....	309
Portable System Upgrading .....	310
Batteries .....	311
Fuel Cells .....	312
Upgrading/Replacing Portable Drives .....	312
PC Cards .....	313
Review Questions .....	316
Answers and Explanations .....	318
Challenge Solutions .....	320
<b>9 Symptoms and Troubleshooting .....</b>	<b>321</b>
Introduction .....	326
Isolating Power-Supply Problems .....	326
Checking Dead Systems .....	327
Other Power-Supply Problems .....	328

Troubleshooting the System Board .....	328
System Board Symptoms .....	329
Configuration Checks .....	331
Hardware Checks .....	333
Troubleshooting Keyboard Problems .....	338
Keyboard Symptoms .....	338
Basic Keyboard Checks .....	339
Keyboard Hardware Checks .....	339
Troubleshooting Mouse Problems .....	340
Problems with Port Connections .....	340
Problems with Correct Mouse Drivers .....	341
Problems with the Mouse Trackball .....	341
Problems with Mouse Buttons .....	341
Mouse Hardware Checks .....	342
Mouse Configuration Checks .....	342
Troubleshooting Video .....	343
Video Hardware Checks .....	345
Troubleshooting Monitors .....	348
Diagnosing Monitor Problems .....	350
Troubleshooting Floppy-Disk Drives .....	351
Basic FDD Checks .....	352
Troubleshooting Hard-Disk Drives .....	353
HDD Configuration Checks .....	355
Basic HDD Checks .....	356
HDD Hardware Checks .....	357
Troubleshooting CD-ROM and DVD Drives .....	358
Basic Checks .....	358
Windows Checks .....	359
CD-ROM/DVD Hardware Checks .....	360
Troubleshooting Tape Drives .....	362
Troubleshooting Other Removable Storage Systems .....	364
Troubleshooting Port Problems .....	365
Port Problem Symptoms .....	365
Basic Port Checks .....	366
Windows Parallel Port Checks .....	368
Windows Serial Port Checks .....	370
USB Port Checks .....	371
IEEE-1394 Adapters and Ports .....	373
Troubleshooting Infrared Ports .....	374

Troubleshooting Modems .....	375
Modem Symptoms .....	376
COM Port Conflicts .....	376
Windows Modem Checks .....	377
Communication Software .....	379
Modem Hardware Checks .....	382
Troubleshooting Sound Cards .....	383
Sound Card Configuration Checks .....	383
Sound Card Hardware Checks .....	384
Troubleshooting Network Cards .....	385
Troubleshooting Portable Systems .....	386
Troubleshooting Touch Pads .....	388
Troubleshooting PCMCIA .....	388
Troubleshooting Portable Unique Storage .....	389
Troubleshooting Batteries .....	390
Troubleshooting Docking Stations/Port Replicators .....	391
Review Questions .....	395
Answers and Explanations .....	399
Challenge Solutions .....	402
<b>10 Basic Troubleshooting Techniques</b> .....	<b>405</b>
Introduction .....	407
Diagnostic and Repair Tools .....	407
Using a Multimeter .....	408
Information Gathering .....	411
Symptoms/Error Codes .....	412
Initial Troubleshooting Steps .....	413
Observing the Bootup Procedure .....	413
Field-Replaceable Unit Troubleshooting .....	418
Review Questions .....	421
Answers and Explanations .....	422
Challenge Solutions .....	424
<b>11 Preventive Maintenance</b> .....	<b>425</b>
Introduction .....	428
Cleaning .....	428

Preventive Maintenance Procedures .....	429
Dust .....	430
Rough Handling .....	430
Heat Buildup .....	431
Protecting Monitors .....	432
Caring for LCD Displays .....	433
Protecting Hard-Disk Drives .....	434
Protecting Removable Media Drives .....	436
Protecting Input Devices .....	439
Power-Line Protection .....	440
Surge Suppressers .....	441
Uninterruptible Power Supplies .....	442
Review Questions .....	448
Answers and Explanations .....	450
Challenge Solutions .....	452
<b>12 System Protection</b> .....	<b>453</b>
Introduction .....	456
Electrostatic Discharge .....	456
MOS Handling Techniques .....	458
Understanding Grounds .....	460
Protection During Storage .....	462
Disposal Procedures .....	463
Avoiding High-Voltage Hazards .....	464
Avoiding Laser and Burn Hazards .....	455
Review Questions .....	469
Answers and Explanations .....	468
Challenge Solutions .....	470
<b>13 Microprocessors</b> .....	<b>471</b>
Introduction .....	474
The Pentium Processor .....	474
Advanced Pentium Architectures .....	476
Pentium MMX .....	476
Pentium Pro .....	477
Pentium II .....	478
Pentium III .....	479
Pentium 4 .....	481

Itanium Processors .....	482
Pentium Clones .....	484
Socket Specifications .....	486
Microprocessor Clock Speeds .....	489

## Final Review

---

<b>Fast Facts: Core Hardware Service Technician Exam</b>	<b>763</b>
1.0 Installation, Configuration, and Upgrading .....	764
2.0 Diagnosing and Troubleshooting .....	771
3.0 Preventive Maintenance, Safety, and Environmental Issues .....	773
4.0 Motherboard/Processors/Memory .....	776
5.0 Printers .....	780
6.0 Basic Networking .....	784
<b>Practice Exam: Core Hardware Service Technician</b>	<b>815</b>
Exam Questions .....	816
Answers to Exam Questions .....	825

## Appendices

---

<b>A Glossary</b>	<b>807</b>
<b>B Overview of the Certification Process</b>	<b>841</b>
About the A+ Certification Program .....	841
<b>Index</b>	<b>843</b>

## About the Author

Charles J. Brooks, author of five editions of the *Training Guide*, is currently the president of Marcraft International Corporation, located in Kennewick, Washington, and is in charge of research and development. He is the author of several books, including *Speech Synthesis*, *Pneumatic Instrumentation*, *The Complete Introductory Computer Course*, *Radio-Controlled Car Project Manual*, and *IBM PC Peripheral Troubleshooting and Repair*. A former electronics instructor and technical writer with the National Education Corporation, Charles has taught and written on post-secondary EET curriculum, including introductory electronics, transistor theory, linear integrated circuits, basic digital theory, industrial electronics, microprocessors, and computer peripherals.

## Dedication

Once again, I want to thank my wife, Robbie, for her support throughout another book campaign. Without her support and help, I'm sure there would be no books by Charles Brooks. I also want to mention Robert, Jamaica, Michael, and Joshua for adding to my life.

## Acknowledgments

There are so many people to thank for their efforts in preparing this book that I'm never sure where to start. But lots of folks worked very diligently to bring this book to market.

My staff at Marcraft has worked diligently to make certain that this is a quality product. I want to thank Cathy Boulay and Mike Hall for their artistic efforts, which are demonstrated throughout the book.

I also owe a big thanks to Grigoriy Ter-oganov, Yu Wen Ho, and Jason Ho of my Technical Services and Development staffs for many things, including turning my hands-on procedure ideas into working lab explorations, for their review and proofreading skills, and for their test-bank compilation work. Thanks also to Tony Tonda for all his work preparing user-support materials for the project.

I want to thank Marc Savage and David Eytchison for their invaluable insight and excellent recommendations for improving this book.

As always, everyone I have worked with at Que Publishing has made this a pleasant experience. Jeff Riley, Steve Rowe, and Dan Knott, thanks again for another great life experience. Let's do another one sometime.

Finally, I want to thank all the people who purchased the previous editions of the book and cared enough to share their feedback with me. You may see one of your suggestions in this version. Good luck with the exam, but I hope you don't need it after using this book.
